SUBJECT: Headquarters Power Outage

1. In order to test the new emergency power generator system, it will be necessary to curtail electrical service to the entire Headquarters compound on Sunday, 25 October 1981, from 0800 hours to 1600 hours. Power will be out for fifteen-minute intervals on several occasions during the period. The only areas which are scheduled to have uninterrupted service during this period are the communications center and computer centers GC03 and GC47. Elevators will be out of service during the entire period.

2. It is requested that personnel within your component who plan to be in the Headquarters Building on Sunday, 25 October 1981 be notified of this work. Activities should be rescheduled if possible. Particular care should be exercised at those times when lights are out. Should you have any questions, please contact Headquarters Engineering Branch on extension [REDACTED]
